

ART range

ART MONOBLOC 500

The perfect awning for large terraces

ART

Description

This is an invisible arm range awning designed to cover large areas. With a projection of 5 metres this awning can cover up to 60 m² without the need for pillars or other obstacles.

Ideal for installation

- On café terraces
- In restaurants
- Any other large area

Dimensions

Mounting

- Wall Monobloc
- Ceiling Monobloc

The brackets are mounted on a 50x50x3 reinforced square bar in order to simplify operation, reduce set up time and make the system safer.

The tension transmission system

ART 500 arms with the ART SYSTEM internal tension transmission help to ensure that the lacquer is not damaged and notably lengthen the lifespan of the awning.

Operation

- Motorised or automated with wind sensor

Finishes

- Lacquer in accordance with QUALICOAT standards
- Stainless steel screws and bolts

European standard classification: Class 2

Accessories

- Galaxia weather cover
